

“NEW” Pro-Torque™ Rod Rotator Family **Exchange Program**

Wellhead Systems Inc., once again is leading the market by introducing a **COMPLETE** line of bearing drive Pro-Torque™ rod rotators. By eliminating ratchet pawls and replacing with the new bearing design, our rotators have been field tested and proven in some of the harshest conditions. All models are available in a Standard & Slow Gear model.

Exchange Program

Customers have 2 options when converting to the one-way bearing design.

Option 1

All WSI & Hercules ratchet pawl models can be converted with the economical retro fit kit.

Option 2

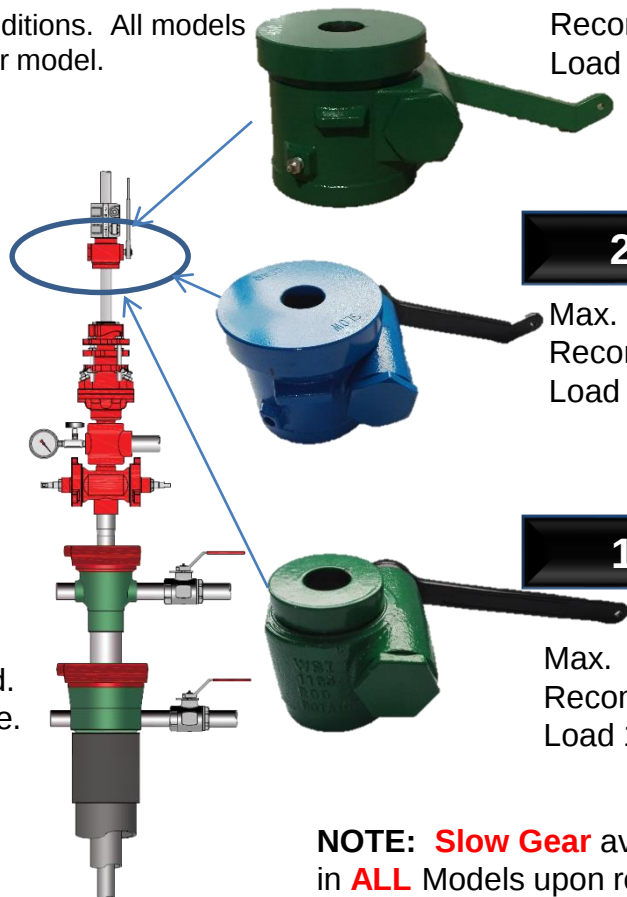

All ratchet pawl design rod rotators qualify for the exchange program.

Exchange program consists of:

- New WSI one-way bearing design in exchange for core model in field.
- Lot sizes of 5 or more is preferable.
- One year warranty included
- Significant reduction in exchange price for one-way bearing

“Customer Corner”

- Eliminate ratchet pawls and utilizes one-way bearing and solid drive shaft
- One year warranty available with Core Exchange Program
- Retro applicable models to One-way bearing design for half the price of new rod rotator
